TAKING CARE OF YOUR BUCKBOOTZ FOOTWEAR

- **Regular Cleaning** will help you extend the life of the leather upper. Removing mud/other debris gently with a brush before wiping with warm water will aid the leather.
- **Allow the leather to dry out naturally**, using dry newspaper or kitchen roll inside the boots to assist. Never harsh dry the leather! Harsh drying will cause the leather to shrink, crack and go brittle. This condition cannot be reversed.
- **Consider use of BUCKBOOTZ leather care products** including leather gel and Beezwax spray to assist the nourishment and water resistance properties of the leather.

COMFORT

- **Consider the wear of a quality sock** to provide your feet with comfort, cushioning and moisture wicking. BUCKBOOTZ SOKZ – COOL and CORDURA provide socks for all seasons and wear.

DAMAGE

- **If the safety footwear becomes damaged**, it will not provide the optimum level of protection, and therefore should be replaced as soon as practicable. Never knowingly wear damaged footwear while conducting a risk related activity. If in doubt about the level of damage contact the BUCKBOOTZ customer service team via info@buckbootz.com.
- **If the toe cap protection is subjected to significant compression and/or impact**, there may be damage which is not visible which may compromise its ongoing performance integrity. In such circumstances it is strongly recommended the footwear is replaced immediately (and preferably destroyed) even if it appears undamaged.

CUSTOMER SERVICE

- **For further support and guidance on your BUCKBOOTZ product** please contact info@buckbootz.com or call 01382 828200.
