

MSA V-Tec Self Retracting Lifeline 10M Galvanised Cable

Product Code

MSA63210-00AEU

Available in Sizes

10M

Available in Colours

Chrome
MSA63210-00AEU

With premium stainless steel components and innovative engineering, the V-TEC Self Retracting Lifeline incorporates a precision-made spring radial energy absorber that requires zero calibration or adjustment. The retraction dampening feature controls cable retraction speeds preventing premature and accidental load indicator deployment.

The V-TEC™ 10M Cable SRL is intended to form a complete connecting element between the body support element and the anchor.

- The internal energy absorber ensures the forces passed to the user and anchorage are reduced to below 6 kN
- All internal components are manufactured from materials with inherently high corrosion resistant properties
- Retraction dampening device restricting ultimate lifeline retraction velocity if released whilst extracted
- The toughened case is designed to resist impact damage and protect internal components
- Weight range 60-140kg including tools
- EN360:2002 Personal protective equipment against falls from a height. Retractable type fall arresters
