S-5L

The S5 Safety Cutter is an exciting upgrade to the industry leading S4 Safety Cutter. This 3-in-1 tool takes the essential box cutting and tape splitting features of the S4 and adds an integrated film cutter for safely cutting shrink-wrap, plastic straps, twine and more. This innovative cutting tool reduces costly razor blade injuries and makes box cutting safe, easy and comfortable. The guard also serves as a guide for executing the perfect cut every time, turning even a new-hire into an expert cutter instantly. The unique angle of the blade is set specifically to avoid damaging the contents within the box. Plus, the versatile S5 has three blade depth positions to increase efficiency; top cut, shallow tray cut and deep cut. Users also find that utilizing the heavy duty tape splitter while opening boxes further prevents injuries and extends the life of the blades. For better retention purchase with corresponding UKH-423 Safety Holster and CL-36 Coil Lanyard.

Features

- The fixed steel guard will not flex, bend, or break like other cutters and is designed to protect the user.
- Integrated film cutter
- 3 blade depth positions for top cuts, shallow tray cuts and deep cuts
