

AP51 - Cut F15 Nitrile Aqua Glove

Collection: Cut Resistant

Range: Hand Protection

Materials: HPPE, Polyester, Steel, Elastane

Dipping:

Outer Carton: 144

Product information

Engineered for precision and protection, the Cut F15 Nitrile Aqua glove combines top-tier cut resistance with outstanding comfort and grip. Designed for high-performance environments, this glove features a double-dipped nitrile coating that resists cuts, abrasions, punctures, and oils—keeping hands protected in the toughest conditions. The breathable 15-gauge liner ensures a snug yet flexible fit, allowing for extended wear without sacrificing dexterity. The glove offers maximum cut protection with a Level F rating, delivering the highest level of safety against sharp materials. Its double-dipped nitrile coating enhances durability while providing strong resistance to chemicals and oils. A seamless 15-gauge liner ensures excellent breathability and comfort throughout the workday. The glove is also touchscreen compatible, allowing users to operate devices without removal. Additionally, it provides heat resistance up to 100°C, making it suitable for handling warm tools and materials. Ideal for use in automotive, construction, manufacturing, metalworking, and oil and gas industries, the Cut F15 Nitrile Aqua is a smart choice for professionals who demand both performance and protection.

Hand Protection

A wide and increasing range of hand protection products is available. In order to help cater to every need. Only the best materials and manufacturing methods are used in the production of Portwest's extensive range of Hand Protection products....

Standards

EN ISO 21420: 2020 Dexterity 5
