

AP53 - Cold F15 Nitrile Aqua Cut Glove

Collection: Thermal Protection Gloves

Range: Hand Protection

Materials: HPPE, Polyester, Steel, Elastane, Acrylic

Dipping:

Outer Carton: 48

Product information

Stay safe, warm, and in control with the Cold F15 Nitrile Aqua Cut Glove—the ideal choice for demanding tasks in cold and wet environments. Engineered for superior cut resistance, enhanced grip, and reliable thermal insulation, this glove delivers top-tier protection without compromising comfort or dexterity. It features advanced cut-resistant fibers that provide Level F cut protection, shielding your hands from sharp edges and hazardous materials. The water-resistant, double-coated nitrile palm ensures a secure grip even in wet and oily conditions, making it highly effective in challenging work settings. A thermal lining offers dependable insulation, keeping your hands warm and functional in low temperatures. Designed for flexibility and breathability, the glove fits ergonomically to reduce hand fatigue during extended use. Its rugged construction stands up to heavy-duty wear, making it a dependable choice for industrial, construction, automotive, and outdoor applications.

Thermal Protection Gloves

When cold thermal hazards are present, the hands' motor skills can be greatly reduced, this leads to increased risk of accidents and injury. Specially designed thermal protective gloves are available to combat these dangers in hazardous environments.

Hand Protection

A wide and increasing range of hand protection products is available. In order to help cater to every need. Only the best materials and manufacturing methods are used in the production of Portwest's extensive range of Hand Protection products....

Standards
